NAVY: 75th Anniversary of the Seabees

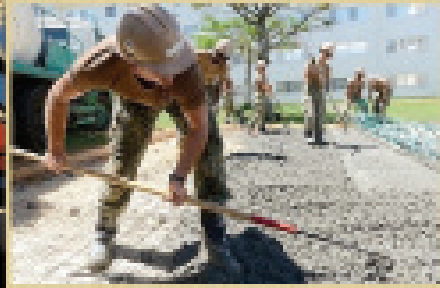

ABOUT THE SEABEES

"Built on history, constructing the future."

2017 marks the 75th Anniversary of the Navy Seabees and will be celebrated by naval active duty, reservists and veterans nationwide. *Navy: 75th Anniversary of the Seabees* will use this anniversary as a platform to explore the history of the Navy and its development into the highly technical force of the 21st century. It will also be a tribute to the men and women of our fleets, serving all over the world. There will be contributions from our military leaders, political figures, senior service personnel, leading CEO's and celebrities. Key people throughout the armed forces, the Federal Government and the DoD will comment on subjects such as current deployments, homeland and global security, and advanced technologies.

Navy: 75th Anniversary of the Seabees will be published in the format of an extremely high quality, 200 page, glossy publication, due out in July 2017 to highlight the Civil Engineer Corps 175th Anniversary Dinner and other surrounding events celebrating the 75th Anniversary of the Seabees for the rest of the 2017 year, leading to the big closing celebration in December 2017.

Operational Test and Evaluation Force

75th Anniversary of the Seabees

“**T**he U.S. Navy will proudly commemorate the 75th anniversary of our Fighting Seabees,” said Richardson. “The Seabees were established in the dark days following the attack on Pearl Harbor to answer the crucial demand for builders that could fight. The Seabees have a longstanding tradition of support to the National Military Strategy through contingency construction since their establishment in 1942. The Seabees are a proud and dedicated force with proven warfighting competence and character.”

NAVFAC Commander and Chief of Civil Engineers Rear Adm. Bret Muilenburg echoed similar sentiments in a video message aired during the Ball. “This year marks the 75th anniversary of the Seabees, a fighting group that I’ve been proud to be a part of for the past 32 years,” said Muilenburg. “As you celebrate, remember you are part of a proud legacy that has played a major role in every significant military engagement since World War II.”
